

A woman with long, wavy blonde hair, wearing a white strapless dress, stands against a white background. She is holding a white bucket with a metal handle in her left hand and a white toilet lid in her right hand. The bucket is tilted, and the lid is held up.

Buckets that
stand anything.

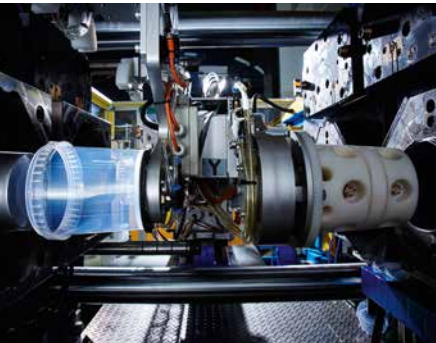

WOLFPLASTICS
GROUP

And I'd do (almost) anything for you.

- A wide range of canisters and buckets – all by the same producer
- Competent advice, even on your own premisses
- Prompt professional processing
- Reliable delivery
- Failure backup provided by 3 plants with equal quality levels
- Sustainable long-term customer assistance
- Labelling and printing
- Closure versions for any requirements
- Stacking capacity with a high stress resistance
- Individual solutions for special requirements
- One partner for all of Europe with standard contracts
- Modern quality management
- UN-tested products
- ISO certification
- Award for competence and climate protection from the Austrian Environment Ministry

I am more than just a package. I am your complete package.

plant in Hungary

I am always giving my best, not only where appearance is concerned. I am trying to make it as easy as possible for you. All you have to do is ask, and I will take on a multitude of tasks for you, the way no one else does: I am your added value.

- Advance production
- Storage, even of large charges
- Individual labelling and sorting according to customer requirements
- Delivery to more than one recipient on different deadlines
- Flexible, prompt delivery
- Reduction of working capital

by WOLF PLASTICS

Everything is comely with me. And it can get better, too.

A bucket is a bucket? No! Because I am as varied as life itself. I can cater for special needs and am the right packaging for all forms of use. I am your flexible partner and meet your needs and wishes thanks to my standardised range.

But I am also open-minded when it comes to going completely new ways. Because realising shared visions is a particular passion of mine. And as you can see when you look at me, we always work with a customised approach and consistent quality.

It goes without saying that we are tried and tested all the time. Nothing is left to chance. We get our excellent genes exclusively from top, international suppliers and premium manufacturing.

We are constantly subject to extremely stringent quality tests and are required to fulfil standards such as **ISO 9001:2008**, **ISO 14001:2005** and **ISO 22000:2005**.

Not only good looks and **a good feel** but also **durability** and **reliability** are crucial for us. We keep everything in its place and remain **airtight and solvent-resistant** for exactly the right atmosphere. Whether it's **building materials, chemicals or food**: we adapt perfectly to the respective contents! Just as you would expect from perfect buckets.

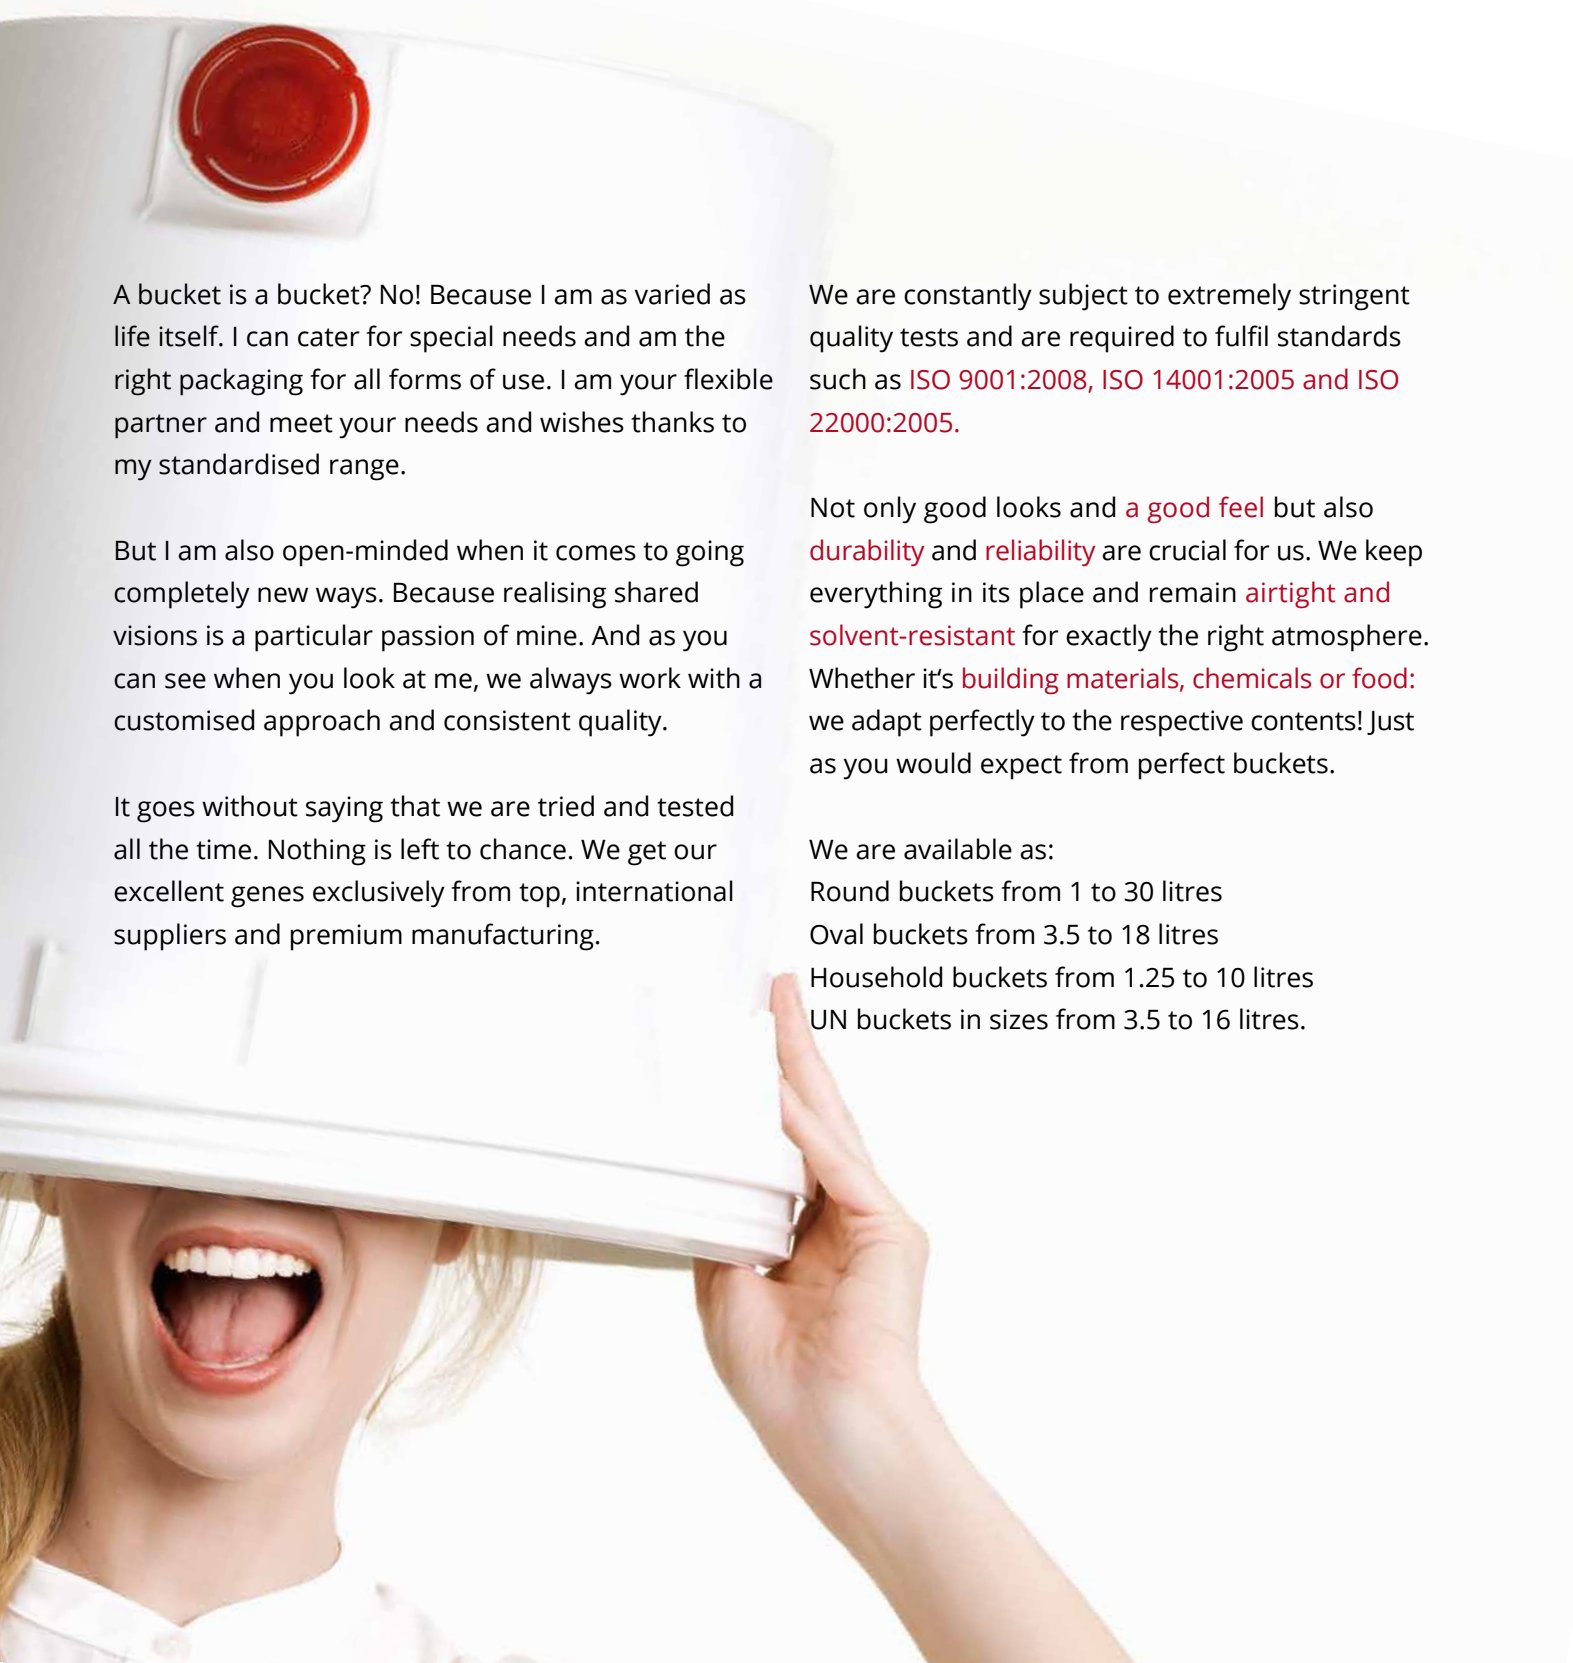

We are available as:

Round buckets from 1 to 30 litres

Oval buckets from 3.5 to 18 litres

Household buckets from 1.25 to 10 litres

UN buckets in sizes from 3.5 to 16 litres.

A lid is a lid? No! Because my lids are much more. Not only do they stay sealed, they can withstand anything and everything. Whether they are shaken, if they have to be watertight or whatever type of opening they should have, it makes no difference: they always go perfectly with my respective contents! Just as you would expect from perfect packaging.

My lids are available as:

Shake-proof lids – particularly suitable for paint and plaster

Snap lids – our well-known quality standard

Watertight lids – for optimum sealing

Sealing lid – suitable for sealing film, ideal for use with food

All lids are available with or without opening aid.

More details available on request!
