

I am your bucket  
for food.

**WOLFPLASTICS**  
GROUP

# I am more than a package. I am food-safe.

I combine longevity, surface quality and cost-effectiveness with the suitability for food. For this I need to fulfil a set of legal requirements.

I have the necessary EN ISO 22000:2005 Certification and fulfil the EU regulations 1935/2004, 2023-2006 and 10/2011.

I am not just food-safe, I am more than that:

- Advance production
- Storage, even of large charges
- Individual labelling and sorting according to customer requirements
- Delivery to more than one recipient on different deadlines
- Flexible, prompt delivery
- Reduction of working capital

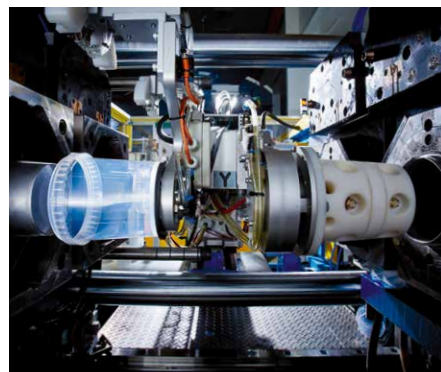

# I am more than a package. I am your complete package.

As part of a traditional Austrian family owned enterprise, my pedigree goes back to 1973 and Kammern – where everything began –, to 1992 when we reached Hungary, and 2004 when we established ourselves in Romania.

My birth meant not just the creation of a package, but the vision of the best possible plastic package meeting your requirements. What we offer our long time partners is not only highest quality, best logistics, and reliable delivery deadlines, but also keeping our promises as we follow the motto: One word – your plastic package.

230 excellently trained employees collaborate so that I reach our clients in time and perfect quality. This is how we came to be market leaders for plastic packages in Central and South-Eastern Europe.

Upper right: Executive director of WOLF PLASTICS Group Georg Hirsch talking to employees.  
Right: Bucket production.  
Upper left: WOLF PLASTICS plant in Hungary.

# Round buckets food-safe All buckets available with IML
