WOLF PLASTICS:  
Improved sustainability –  
We give it our all.

## The booster for your environmental footprint

If our customers decide to go for recycled „grey“ alternatives instead of „new“ raw materials, the advantages are plain to see.

- ▮ same cost plus savings in valuable resources
- ▮ equally robust, sustainable and sealable as new plastic
- ▮ same design options, also IML-capable
- ▮ upgrade of environmental footprint due to massive savings in energy and CO<sub>2</sub>.
